Chorus:

D                    Em  
Come, come away  
                    A7                    D/D9

v.1.

D                    C  
Why must we live as if there were no tomorrow  
D                    C  
So much we could give, put an end to this sorrow  
D                    C  
Drifting along without thought or direction  
D                    C  
We do what we have to, there's no time for reflection

Chorus

2.

On carousel ponies, like mindless commuters  
We cling to the present and turn to the future  
It's time to stop hiding and make a new choice  
Stand up for the future, and give it a voice

3.

Time keeps on passing, no way to control it  
Once had a dream, but somewhere we sold it  
Time to remember, its time to retrieve it  
Stand for the people, and start to believe it

Chorus

Instrumental (Lead guitar, verse chord sequence)
