

Is Anybody Out There?

Intro: 8 Bars E/E7, thumping beat.

1.

E7

My body's tired but my mind is racing
Can't get hold of the dreams I'm chasing
Can't sleep nights 'cause the kids are waking
Can't hold a drink 'cause my hands are shaking

A7

Gotta do more of the things I hate
Dishes aren't done and the tea is late

E7

Is anybody out there?

2.

Who do you turn to when you've got no friends?
People using you to meet their ends
Folks can't help you 'cause they're lost themselves
Spinning round in some other world
Mum don't know and Dad don't care
Who can I turn to in my despair?
Is anybody out there?
Is anybody out there?

Chorus:

A7

E7

Is anybody out there, and if I shout will anybody hear?
Is anybody out there, does anybody ever really care?
Is anybody out there, is anybody ever gonna call?
A7 B7
Is anybody out there, is anybody listening at all?

3.

Every day it's the same routine
Life going round like a washing machine
Killing time while the hours crawl
Wondering if I ought to end it all
Beds aren't made and his shirts aren't sewn
Gonna be trouble when he gets home
Is anybody out there?

Chorus

Instrumental

Repeat verse 1, repeat last line 3
