

Let the Bad Dog Run

(Thumping blues beat)

V.1

E(7)

Most of the time he just hangs around

Stays out of the midday sun

Comes when you call, no trouble at all

Likes to have a bit of fun.

V.2

Knows what it's worth, keeps an eye on his turf

Chases the wolves away

But now and then, you've got to cut him loose

You've got to let him have his day.

Chorus:

A7

You gotta let the bad dog run, honey

E

Go back to where it all began

A7

Let go of the lead, let go of the chain

B7

E

He's gone...but he'll be back again!

V.3

It might take a bit of time for him to work it through,

Might be a week or two

Comes back to the hearth when the fire goes out,

Wags his tail at you

So you take him in, and he gives you that grin

You give a bone or two

He'll be there at your side, he's gonna serve with pride

Till the next time the call of the wild breaks through!
